FORMS OF BEQUEST

BECAUSE of the constantly increasing tendency on the part of alumni and other friends to provide for the growing needs of the University by bequests and the many inquiries received each year as to the proper wording thereof, there are given below forms for the convenience of those who plan to remember Yale in their wills.

(GENERAL)

I give and bequeath to Yale University, a corporation existing under the laws of the State of Connecticut, and located in the City of New Haven, in said State, ... dollars, to be used at the discretion of the Corporation of said University.

(SPECIFIC)

I give and bequeath to Yale University, a corporation existing under the laws of the State of Connecticut, and located in the City of New Haven, in said State, ... dollars, and direct that the income therefrom shall be used for the purposes following, that is to say.

(Here specify in detail the purposes)

As in some states a bequest for charitable purposes is void unless the will is executed at least a certain length of time (varying in different states) before the death of the testator, and is attested by two or more credible, and at the same time disinterested witnesses, it is advisable to ascertain the requirements of the law in the state in which the testator resides, and to be careful that such requirements are complied with.
